Dear Honorable Leader

Being a leader in today's tumultuous society cannot be easy. However, you're doing it **and** making positive contributions. To that end, I'd like to say THANK YOU!

The Targeted Individual (TI) community is ever so grateful for your work. Much is needed to assist, and we're hopeful that we're headed in the right direction.

- TIs are innocent American citizens who are unlawfully placed in the Terrorist Screening Database (on The Domestic Terrorist Watchlist) with no due process and no redress.

To that end, if you were amongst the leaders who called for an examination of the flawed Watchlist, again - THANK YOU! 97% of the Watchlist is comprised of TIs who are far from terrorists (See Attached).

Furthermore, there was a closed meeting held on 1/9/24 in response to the questioning which has not been disclosed to the general public. Is there a way to get the results of the inquiry?

- TIs are also unduly subject to the new FISA provision. Spreading disinformation about TIs and empowering the public to report/spy on them is unconstitutional.

Thus, if you voted against FISA or even to amend it - THANK YOU! You don't realize the harassment and invasion of privacy that TIs experience on a day-to-day basis. Hopefully, this amendment can be revisited in the near future.

- Havana Syndrome is a result of Directed Energy Weapons (DEW). Victims are not only diplomats, they are also everyday people, yes that's right, TIs. The continual remote use of these weapons can cause Havana Syndrome in just 6 months.

If you've been a part of the small contingent to raise awareness and take a stand for this issue - THANK YOU! I know it's no easy feat. This is the life-threatening byproduct of being in the TSDB. If you've viewed the attachment, then you understand that the Watchlist is fraudulent.

In summary, this correspondence is to sincerely ***"thank you"*** for being courageous and caring enough to address the hard-to-face issues; and to take a stand for TIs - please know, ***a stand for TIs is a stand for the entire human race.***

Sincerely,

[Your Name]
